

# Where do we go from here?

Our roadmap ties together the strategic objectives and the commitments to the research community. It is a visualization of our goals and actions for 2022-2025 that will shape the Alliance and the future of the digital research infrastructure.

## Stabilize

As the Alliance assumes its role leading the national DRI, we will establish the foundation for a more robust and equitable DRI that responds to researcher needs.

Transition into DRI

## Expand

The Alliance will collaborate with its national, regional, and local DRI partners to build a pan-Canadian ecosystem that is rooted in our shared vision of a researcher-focused, strategic, and sustainable DRI.

Training and Development

Equity, Diversity, Inclusion, Accessibility

## Scale Up

The Alliance envisions an integrated national DRI that promotes research excellence and innovation, consolidating Canada as an international leader in digital research.

Service Delivery and Funding Models

National & International Engagement

Data sovereignty

Research Software

Advanced Research Computing

Research Data Management

Digital Research Alliance of Canada

Accelerating Canada's Research Future.

Alliance de recherche numérique du Canada

Accélérer l'avenir de la recherche au Canada.
